

*Embassy of the United States of America*

22 November 2006

To Whom It May Concern:

In April 2006 the American Embassy in Copenhagen was in process of searching for high quality office furniture for twenty employees. I was invited by Joern Bundgaard-Moeller, Managing Director of Scandinavian Export Group, to the ISKU showroom in Malmo, Sweden to look at their line of furniture. I was extremely impressed with the wide range and design of the furniture in the display area.

After several weeks of advice and assistance from Mr. Bundgaard-Moeller I made a large purchase for the Embassy and was carefully guided by Mr. Bundgaard-Moeller from the design/order phase all the way through delivery and assembly. The new Management Office wing functions extremely well with the addition of the ISKU provided furniture.

Now as a satisfied ISKU/ Scandinavian Export Group customer I can highly recommend their high quality furnishings and service to any prospective buyer.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Gregory MacDonald', with a stylized flourish at the end.

Gregory MacDonald  
General Services Officer  
American Embassy, Copenhagen
